Exclusive and custom ceramic tiles since 1922

Digital Ceramic Tile Decoration

Since 1922 Balian Ceramics has been famous for its exclusive and unique hand painted ceramic tiles. To give our discerning clients a wider range of choice for the past five years we have been at the forefront of digital ceramic tile decoration. With the help of European state of the art tile decoration techniques we have introduced the amazing new and exciting world of digital tile decoration to our clients.

Unlike some copies on the market these decorated tiles are fired in a ceramic kiln at more than 800 Centigrade whereby the ceramic image applied to the tile melts into the glaze of the tile. This gives extreme durability to our tiles where they can be used for interior, exterior, floor, wall and pool areas. The images which you see in the following pages are just some of the thousands of tiles which we can produce and have produced. They can be also reproduced on different sized tiles but with preferences given to 15x15cm or 20x20cm tiles.

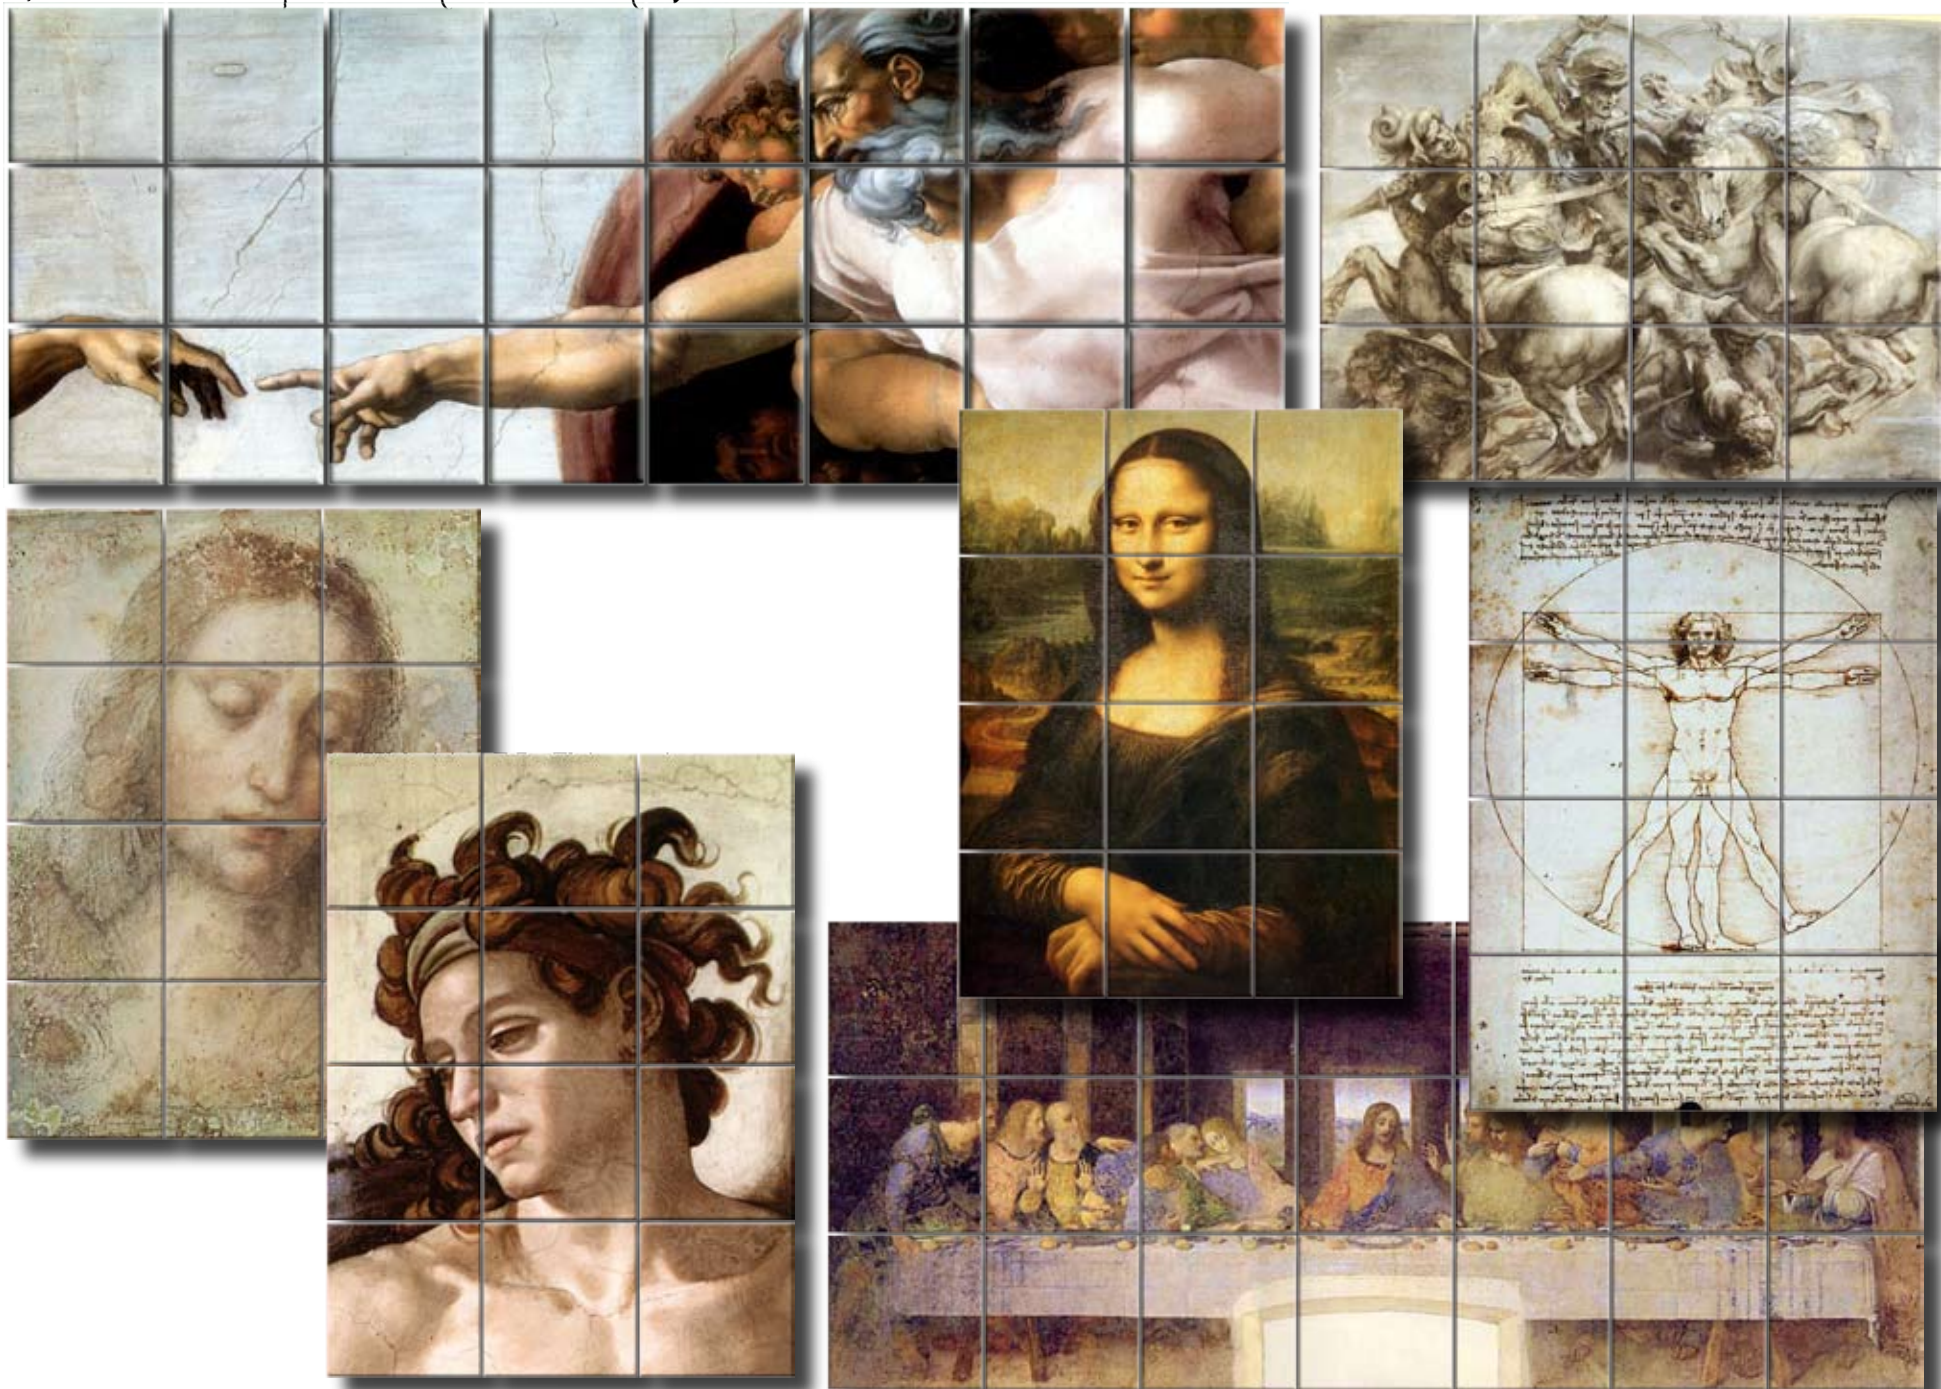

The idea is simple
